

Early Planning, Strong Results: The FACT Impact

A once-in-a-generation investment for the future of our community

Updates and input

For the most up-to-date information, visit kycapitaldevelopment.com and follow us on the **KCDC Facebook Page**.

Tune into our social channels for notifications about public meetings and other opportunities to provide your invaluable feedback.

Creating new opportunities

The Franklin-Anderson Commerce and Technology (FACT) District aims to create **1,000 new jobs** in target industries with an average wage of **\$62,000**.

Advanced Manufacturing

Work with the latest technologies to create innovative products.

Agriculture-Technology

Use technology and data analytics to strengthen farming practices.

Life Sciences

Support positive health outcomes and environmental solutions.

Additional Opportunities

Creating new opportunities in these industries also leads to new jobs in skilled trades, retail, education and healthcare.

Empowering our neighbors

Thanks to thoughtful and early planning, we will be able to work with local partners like **Kentucky State University** to empower our neighbors with the skills they need to succeed.

Strengthening community services

The FACT District will increase our public funds, ultimately supporting our roads, schools, parks, public works and other community resources.
